Duolingo [Updated]

Duolingo is the most popular language learning application on the internet, which has been downloaded by over 100 million users, who claim that it has helped them improve their language and critical thinking skills. What is Duolingo? Duolingo is a free online tool that has the purpose of helping you improve your language skills. It offers you a wide variety of courses, which you can choose from several language categories. Once you select a language course, you will be asked to set your daily goal, and the application will display a series of highly appropriate, up to date courses that will help you reach that goal. Once you complete a course, you will be able to see your progress, which you can also compare with your previous results. Duolingo Free Version: As mentioned above, you need to make a choice from a list of various courses before you can start learning another language or perfecting your language skills. Once you set the parameters mentioned above, you can proceed to the courses, which are neatly organized by their difficulty level, so that you can browse them efficiently. Duolingo has two types of courses: • Quiz, where you will learn words and phrase using pictures of objects and phrases. • Conversation, which means that you will hear a phrase and then translate it into your own language, and then answer to the tutor/examiner in your own language. Duolingo offers you information about Duolingo itself on the course's description. All in all, Duolingo is a credible educational app that packs several useful functions, making it suitable for a wide range of users. Furthermore, it requires no additional nor complicated configuration or time-consuming configuration.
