skip bad json values in c#? I have a json string, which is generated  
from a remote device (firmware). When I have read the json string, I  
use JsonConvert.DeserializeObject in c# to deserialize it. But every  
time the string comes with invalid characters (like \t or ). It throws an  
exception: Could not convert value "a" to type 'System.String'. Path  
'SortingArr', line 1, position 928. Is there any way I can skip the errors  
and continue (if I want to read the next object or something similar)?

A: You should use JsonSerializerSettings and set Error during  
serialization to true. class BSP\_COLLAPSE\_COLLAPSE { public: void
