What's new:

Blake's 7 Marks the End of TV's Golden Age A mere decade ago, a remarkable British TV series that combined sci-fi, drama, espionage, conspiracy and plenty of rampant sex and violence was still sold to the broadcasters. As if the series weren't controversial enough, it was presented by a 20-something punk named Russell T. Davies who eventually became the show's creator, auteur, writer, star and, ultimately, showrunner. It's no longer just selling to the broadcasters, it's sold to other small screens, movie theaters, video stores and even video-game systems. "Blake's 7" (BBC, 1977-1981) is already 20 years old and over, but how it so endeared itself to so many that it will help define a certain era in TV, a time of experimentation. Since that time, the Sci-Fi Channel has boasted one of the best sci-fi TV series catalogs in any cable channel. But that's not news, because it's the same catalog fans have always gone after since the early days of television. But if you talk to people involved with television such as executives and producers it's apparent there were other influences at work that helped shape what we've seen. With "Blake's 7," there are a few names -- including Douglas Trumbull's HDC for the BBC -- that come up as an early clue to understanding the revolution happening, and why there are still revolutionaries to explain, even if the original shows are gone. "Blake's 7" was produced by Channel 4 in the same studio as "Doctor Who" and was actually a spin-off of that science-fiction drama. It should be mentioned that the period when Davies was writing it, before he went on to write such first-rate shows as "Queer as Folk" and "New York Blues," was a time of experimental and innovative entertainment. (Besides "Doctor Who," there were other cult favorites like "The Time Travellers," "Minder" and "The Human Planet.") Perhaps it was a combination of that and workroom democracy that made the series what it was. Davies was given free rein over a show that

You're in the first steps. You use sleep, when you should use thinking. Using thinking first will save you a lot of grief. We were in the early days. We didn't have the wealth of information that is now available to us. That's why thinking first, and not sleep, is important. If you want to become an adult, a responsible adult, you need to learn how to think. I'm trying to get you to learn how to think. No sarcasm there. I can't say more than that. You have to trust me on that. To risk being here could be... very damaging. Before you finish that thought, I'll give you a quote to finish that thought off. Sarcasm is a choice you make. You do not like me. You resent me. You resent the fact that I have more information than you. I don't judge you for that. It's a natural state of mind when we don't want to learn. When we're scared and don't want to be hurt. It'll come. It's just a matter of time. You have time, too. I'll give you my credentials. I have the same success rate as you. I have the same failures too. I failed once, like you. That's why we're here. We're not trying to manipulate each other. I'm not here to force the answers to you. I'm here to help you.
