## **Developer Letter:**

We're doing our best to create, play on STEAM, a game that is a fitting treasure trove for both young and old. Elden Ring was born from our deep desire to create a fantasy story born from the childhood dreams of young gamers, one where you can move freely and take off with the wishes and determination to succeed. And I'm here to state that we will keep creating what is able to still capture those dreams for as long as we can. Elden Ring features deep and challenging gameplay from the beginning, as well as a place that is not just a fantasy, but also a place full of themes that are not just fantasy and not just easy. All this to make your adventure with the Elden Ring a complete feeling that will be as satisfying for all ages and all play styles. I firmly believe that we will strive to create a title that draws in people and creates a high sense of accomplishment when the game finally comes to an end.

Also, we will be releasing new information for you as we add development progress to our website

be honest. Requesting edits for clarity. There are many groups  
like this, but I've found that few of them want to hand over control  
of their server. Or even relinquish ownership. So many work-  
arounds. Since you mentioned "Online", yes we are. We happen to  
be online, off the server. Most of the ones that I've clicked on,  
they've just been conversations, so it has been, if you will - kindof  
a chatroom type thing. Since you mentioned "Online", yes we are.
