I am going to use jQuery 1.4.3 on Windows7 and jQuery 1.6.1 on Linux. My problem is following: Because some code is written using IE's older version (jQuery v1.4.3), I have to make my script read version of IE 8 or 9 rather than Firefox. Until now, I am using script.src = "jquery-1.6.1.min.js"; and script.src = "jquery-1.4.3.min.js"; and it works fine on Linux. But I got error message on windows7 as follows: Incorrect function call. About the ELDEN RING The ELDEN RING is a group of super elites that are the heirs of the Knights in the original FINAL FANTASY games. Known as "the pinnacle of the upper class," the members of the ELDEN RING were devoted to restoring order to their society and were willing to stake everything they had on their quest. ◆ About the Lands Between The Lands Between is a world in a sprawling fantasy kingdom that divides into four countries: the Imperial City, Cygnus, the Holy Kingdom of Hydaelyn, and the Chaos Realm of Doma. The Lands Between is a loosely connected world that is said to be connected by myth. ◆ System Periphery Control The game allows the player to move the camera freely in order to depict the vast world with ease. The player can freely move the camera and change the viewing angle at will. In addition to this, there is a high degree of freedom when moving your character. ◆ Game System Unique Points Counters The number of counters increases with the amount of experience the player gains. Players can add counters to various parts of their character, such as magic, physical strength, weapon skills, and ability skills. As more counters are added to a part, the part becomes more powerful. There are various ways of adding counters to parts of the body. Critical Hits With the critical hit feature, players have the option to select how high the critical hit effect will increase. As the number of times the player successfully performs critical hits increases, the critical hit effects increase in power. Combination Fusions Fusion, a system unique to the ELDEN RING series, allows players to fuse their characters together by tapping on a special graphic that appears on the field, and fuse their characters together to create new powerful characters. 1837> the termination of the lease. Smith's statements were merely a reiteration of an offer that was contingent on the lease agreement having been approved by the arbitrator and the parties. Any statements Smith may have made in the presence of Mr. Danner and Mr. Johnson were not made for the purpose of terminating the lease agreement. In addition to the statements Smith made outside of the presence of the Johnsons' Real Estate agent, Mr. Ford, the Johnsons also claim Smith made numerous statements in the presence of Mr. Ford. The testimony regarding these statements was contradictory. Mr. Ford testified that Smith said that if the contract was not signed in one hour he would not enter the property. Mr. Johnson's testimony contradicted Mr. Ford's testimony. When a statement is of an ambiguous nature and is susceptible to more than one interpretation, the jury is free to decide which party's version is true. Kleinschmidt v. Clark, 67 Ind.App. 163, 118 N.E. 327, 330 (1918). The jury in this matter was not faced with an obligation to choose between contradictory statements. The jury was faced only with deciding whether Smith's statements were made with the intent to injure the Johnsons' real estate business or were merely an idle threat. Smith's statements were made on the day the parties agreed to a lease and Smith sent the contract to the Johnsons' attorney. Thus, the Johnsons could have rejected the contract on the day Smith made the statements if they had agreed that they could not come to an agreement with the real estate agent. The first issue is whether the evidence is sufficient to support the jury's finding that Smith's statements were not made for the purpose of injuring the Johnsons' real estate business. The sole issue of this case is whether the Johnsons are entitled to rescind the contract based on the fraud and misrepresentations of Smith. The evidence reveals that Smith's statements were ambiguous. The
