EzTracker Crack Free [Latest-2022]

ezTracker is a simple tool that can act as a personal financial manager, allowing you to enter records of payments. You can specify the amount, category, method of payment, as well as the date and side notes. Each of these field names can constitute a filtering criteria. You may also differentiate the payments based on their effects: if they are business related or tax deductible. The entries in the payments database can be manually made, by filling in the dedicated fields: category, type, date and amount. You may enter side notes and mark the payment accordingly: deposit/credit, tax deductible or business. Report generator, importing and exporting ezTracker allows you to analyze the existing data, as well as manage it as you see fit. You can import payment records or bank statements from a.CSV or.TXT file, using the program's Rollback capability. Alternatively, you can also export data, via CSV or a text file. The program can generate summaries or detailed reports on the current entries in the list. Moreover, it can group them by category or payment type and restrict the entries to a specific date range. You can also filter the information in the report based on the payment type: business related or tax deductible. Moreover, you can include entries marked as deposits or credits. Customizable categories ezTracker allows you to quickly customize the list of categories, as well as the payment types, in order to better suit your requirements. The main ledger is designed to offer you a global view on the expenses situation for yourself or for your company. However, you can easily filter it, in order to display the data you seek.
