FIFA 22 PLAYER CONTROLS FIFA 22 introduces a brand-new Player Control System that brings authentic, balanced, and realistic gameplay to the pitch. In-depth moves and innovations to player controls will allow you to play the game in the way you want to. Best Player Movement In Videogames Moves and Artificial Intelligence We've made the player moves and artificial intelligence more intelligent and real-world. The AI can predict when a player is going to run, how they'll run, and prepare to intercept the ball. We also consider the way players change their speed, direction, and acceleration in each play to give them more unpredictable and realistic behaviours to tactically exploit opponents. Coordinated Teamplay Assists in the game now work more like they would in real life football. Players can lead through passes on or off the ball to other teammates to create chances for each other and move the ball. We've also added the ability to play more passes and make better decisions. Higher Pitch The pitch size has been doubled to give a more immersive experience at home. The vast expanse of the pitch allows you to sprint, run, and pass with more speed and fluidity than ever before. GRAPHICS 3D Touch And New Camera Views The game engine now supports 3D Touch, giving you an entirely new way to play. You can use 3D Touch to tap, slide, or swipe the screen to quickly access tools, menus, or content. Your player movement and passing also benefit from 3D Touch. And we've also added other new camera views, including the first-person view. New World Class Endgame Experience Improvements to World Class features like goalkeepers and wind, as well as equipment and new physics-based animations. New stadiums and kits, and much more to be revealed. FIFA 20 INTRODUCING FIFA 20 Welcome to EA SPORTS FIFA 20. We're excited to

Let the Game Begin The FIFA Team panned the ball in the direction of the kick, pumping a fist as they watched the ball quickly smacking the crossbar and spinning helplessly towards the net. “I hope that guy scores that goal,” the coach said, as he moved to the centre of the pitch. “It's a penalty!” Before the referee could blow his whistle to send off the striker, the ball struck the striker's leg, causing him to trip and fall to the ground. When the referee was about to call time, the refs reached to the back of the net to pull back the netting, just in time to let the ball through. “I don't believe it!” the coach exclaimed. “The ball just went through the net!” Features: Championship Road to the FIFA World Cup™ UEFA EURO 2016™, EA SPORTS™ FIFA 17 Play as your favourite national team from across the globe as you build the club and lead it to the ultimate goal: the FIFA World Cup™.
