### **What's new in Mass Effect 2 (2010):**

**August 1, 1958 - The 28th of July marks the start of independence for the Republic of Congo. This milestone became possible due to a two-year-long civil war between President Joseph Kasavubu and Lieutenant-Colonel André Kolingba, which has resulted in the deaths of up to 15,000 Congolese. The war has uprooted up to a million families and placed the Congolese under an iron grip of violence. Massive charges of rape and atrocities have been traded back and forth between the two sides. The UN dispatched over 150,000 troops to the area, prompting the UN Security Council to seize the area from the Congolese rebels. The newly formed UN mission, called UNTAC, supports a neutral zone between the two parts. There has been no accurate verification of how long Camp Enigma, along the Thi River in the southeast of the Republic of Congo, has been under French Udin (UN) occupation. It is likely that it has been**

**under French administration since 1956, the year on which the territory was declared “Territoire Indépendante Pour La Colonisation”. Other sources assert that the camp was established in 1949 with permission from the French colonial government. Work began on the dam on 2nd of October 1952 and was completed on the 30th of August 1956. It was initially laid out as a military base in order to house a legion of French immigrant soldiers. Throughout the war, the dam remained in the possession of the UN and the presence of French forces remained steady. The longest ousting from Camp Enigma was in 1949 where the French forces under the direct orders of the colonial Governor of the region evicted workers en masse. The site has not been visited since 1949, and it has stood as a monument from a continuous operation for 20 years. The origin of “Enigma” remains a mystery. It’s believed that the name was supposed to refer to the code of conduct of the camp, where the motto was: “I will be our second name forever”. It is likely that this translates as “Nous sommes un à deux ou jamais un”, or we are one or never nothing. A real crypt.
