In this guide we will cover how to enable Global Accelerator keys, also known as GAS. This is great for improving your gaming experience and in today's review we are going to take a look at one of the most popular keyboard brands on the market, Logitech. The G510 is an everyday all-rounder and its design, comfortable to use, and functionality make it easy to see why it's now Logitech's number one keyboard. The G510 has a choice of two layouts, a Qwerty keyboard and a Colemak keyboard, as well as a whole range of multimedia keys. This allows you to use the keyboard as a laptop or as a desktop. There are also three display modes available: Fullscreen, Game Bar, and Full Screen Overlays. The G510 also has a game mode which allows you to play any game on fullscreen in any mode. You can also set the keyboard to act as a game controller. Performance The G510 is a full size keyboard which is comfortable to use. The keys are textured to provide a secure and comfortable typing surface. The keys are also tactile, meaning that they have a satisfying click as you press them. The keys are so tactile that there are no extra keys on the right side of the keyboard. This allows the hands to be kept on the home row and a more effective typing experience. There are also a large number of shortcut keys which can be used to reduce the amount of time it takes to access commonly used functionality. Shortcut Keys: The shortcut keys are intuitive and easy to find: Ctrl + Alt + F7- Toggle the game mode Ctrl + Alt + Del- Quick access to the Windows Control Panel Ctrl + Alt + C- Quick access to the desktop Ctrl + Alt + L- Quick access to the Logitech Media Player. Ctrl + Alt + U- Quick access to Logitech Chat Ctrl + Alt + W- Quick access to the Start menu. Quick adjustment of the volume and brightness keys is also available by pressing Ctrl + Page Up or Ctrl + Page Down. The G510's backlighting has a total of eight brightness levels and three patterns. These are: Classic, Linear and Random. The default lighting is Random, however you can change it to Classic, Linear, and Gradient if you wish. The lighting can also be set to activate when the keyboard is
