#4 Reviewed by Edge r8game.com/review/review_elden-ring/ PROS Fun and interactive combat Unique and varied dungeons Easy to understand interface Cons Can be frustrating at times Characters can sometimes be a challenge Atmosphere isn't always as epic as it could be As a side note to the recent Zelda: Breath of the Wild, the game is similar to it in that it features open fields with sparse but fun dungeons. The battle is the fun part and the heart of this game. What makes it fun? The combat is turn-based and easy to understand, making it very easy to pick up and play. The fact that you can use as much tactics as you would like to, with either overpowering enemies with strong attacks or staying at a distance and letting them attack you. The dungeons are what really stand out, and, while they are not really inventive, they are definitely interesting. The dungeon designs also feature various puzzles to solve. I also appreciate the fact that each dungeon features its own elements, outside of the common themes, such as puzzles, and trials. The characters are what, perhaps, kill the game. When you first get started, you will be prompted to create a character. However, you don't select their gender, height, weight, or skin color, as you would in a typical RPG. Instead, you start by picking one of the four main classes, and then choosing your character's name, gender, appearance, and personal traits. From there, you get the ability to level up your stats by taking your character through each of the four major areas of The Lands Between. Each of the four major areas represent one of the four main classes, and a different set of stat increases are available there. The only drawback is that you can only use the standard abilities of the class you chose, and you get all of the stats that are available on each class as you level up. Atmosphere From time to time, you will encounter terrible monsters known as "demon trolls," and with each battle, there is a chance that you will encounter their leader. When you encounter one of these trolls, you will be given the chance to pick either to cast a "Last Words" attack on it, or to cast a "Final Words" attack on it. Once you have defeated the troll, it will be revealed that the bff6bb2d33
