Fallen Order, the action-adventure game on PC. Watch gameplay, get tips on using game controls,
and more.Q: ASP.NET Web API same route for different Controller I'm trying to create the same route
for different controller name in Web API and I'm doing it like: routes.MapHttpRoute(name:
"DefaultApi", routeTemplate: "api/{controller}/{id}", defaults: new { id = RouteParameter.Optional }

); routes.MapHttpRoute(name: "DefaultApi", routeTemplate: "api/{controller}/{action}", defaults: new { action = "Index" }); This way the "api/MyController/Index" is working for both Controllers. The problem is that I've already used that route in a WebForms Project and I must be able e79caf774b
