VMware Workstation Pro 15.0.2 Build 10952284 (x64) Keygen [Cra 64 Bit

Wondershare Dr.Fone v9.0.0.15 Final + Crack 64 bit.. VMware Workstation Pro 15.0.2 Build 10952284 (x64) Keygen [Cra.rarQ: How to render json in Ember after an AJAX request? I have an Ember application using ember-data, with the following controller/route App.InboxController = Ember.ArrayController.extend({ model: function() { var ajaxReturn = Ember.AJAX.fetch(''); return ajaxReturn.then(function(data) { console.log('done'); return data; }, function(data) { console.log('failed'); return data; }); }, actions: { action1: function() { alert('action1'); } } }); The endpoint returns the following output [{"id":1,"username":"sky","contact_number":1234567890},{ "id":2,"username":"sky","contact_number":1234567890}] Now, how do I get my view to render the output of this model? It does not work as expected. I have changed the controller to App.InboxController = Ember.ArrayController.extend({ model: function() { var ajaxReturn = Ember.AJAX.fetch(''); return ajaxReturn.then(function(data) { console.log('done'); return data; }, function(data) { console.log('failed'); 0cc13bf012
