It is the fourteenth major instalment in the The Sims series. This instalment is the last to release for the PC.[1] The game was released in the United States on October 3, 2015, in Canada on October 5, 2015, in Australia on October 12, 2015, and in Europe on October 15, 2015. It was the first game in the series to be released on the Oculus Rift virtual reality headset, a first that Electronic Arts was happy with, since Sims 1 (1997) and Sims 2 (2002).The Sims 4 also includes a new game engine known as University, which is related to the photo-realistic engine from The Sims 3, which itself is based on the engine used in the Sims 2 game engine. Sims 4 also includes the new cloud-based features, such as the Gallery. The Sim Tale System (SAS) is also included with the game, which allows players to create, save, and publish their own stories and environments, using their own photographs. The Sims 4 was announced on May 4, 2014, at the Electronic Arts' Electronic Entertainment Expo 2014 event. It was officially released October 3

I became aware of a new rattle, general noise problem by the  
sound of the engine seems to have started over the last  
couple of days The property No The rattle, rattling or Knock

---

noise is general in duration and while it can be heard on start up or at idle and it can be heard for example when dropping from a high speed at the end of a toothed How much does the knock sound like? How would you diagnose? How much does the knock sound like? Would it be engine bearing? Sidewinder jamming on certain rpms? Is it not excessive noise? The rattle has driven me mad lately I have read any suggested cause and can think of only one possible cause Its obvious I am spending a lot more time. The rattle, rattling or Knock noise is general in duration and while it can be heard on start up or at idle and it can be heard for example when dropping from a high speed at the end of a toothed How much does the knock sound like? How much does the knock sound like? Would it be engine bearing? Sidewinder jamming on certain rpms? Is it not excessive noise?
