I will be running a large "Agritourism" farm and this will be my main focus. The farm will have up to 30 rooms, so I require a very powerful program. As this is my first time using Motel Pro I need someone to help me out in becoming familiar with the program. I would also like to hear some of your opinions on how I should run my business. I am hoping to be able to run up to three locations with the program. I would really appreciate it, if you could either... - remember me as a trial user - remember my business and contact me when you look up my company - or for those of you who have used Motel Pro before, be kind and help me out when I have a problem. You have an easy job, you should be helping people rather than writing phone scripts to me. Thanks in advance MUETHER Motel Pro v10.0.0 for 20 day free trial: - Manage rooms and properties - Locates the user's phone number - Print checks, bills, payments, etc. - Manage customer reservations, floor plans, client books, statements, and invoices, along with building directories and stats - Manage
