EZ CRM (LifeTime) Activation Code Free Download

EZ CRM is a visually pleasing and easy-to-use CRM software that allows you to manage your contacts and conversations with absolute ease. It has a beautiful interface that is filled with lots of useful features. User-friendly and easy to use It's easy and simple to use. It's light-weight and you won't need to do much in order to use it efficiently. And it's very user-friendly so even your inexperienced friends can use it with ease. Great tools and features EZ CRM has many useful tools and features that you would expect in a CRM. It has the option to have a sidebar where you can add a contact, event, appointment, and many more things. You can add it via a form. Two contact lists There are two contact lists you can use: one for imported and one for active. With the imported contact list, you can add and delete contacts as you like. With the active list, you can sort it by name, company, last name or by cell phone. Personalize your CRM You can customize your CRM so it fits your needs. That way, you can choose everything from the logo, colors, and font, to the contacts displayed, how you enter info into the database, and more. Create and send emails Create and send emails via the contacts list, add your own company email address, and send emails in batches. You can define which email address to use for the contact, to which you want to write the email, and when you want to send the email. Embed contacts and events You can embed contacts and events into your own website, or you can add it to your social network, or you can share it with your friends via e-mail, text message, or mobile application. Accessible from anywhere EZ CRM is a great CRM that is simple to use, fast to install, and very user-friendly. This CRM is accessible from anywhere since you don't need an internet connection to use it. Fast installation EZ CRM is a very user-friendly CRM. It's fast, it's easy, and it's very simple to use. EZ CRM is a simple and easy-to-use CRM software that allows you to manage your contacts, conversations, and appointments with ease. It sports a visually pleasing interface and a lot of useful tools.

What's New In?

Staying up to date on your marketing campaigns and building your business contacts is easier than ever with this powerful, yet easy-to-use contact management software program. With EZ CRM, you can:

- Use the standard 'contact report' feature to import, view, edit, and export all your contacts.
- Track your sales, marketing, and public relations campaigns, and summarize and export reports and notes.
- Create sales letters, proposals, and more with built-in word processing and formatting tools.

Keep track of all your contacts and address books on your computer, automatically synchronize with your contacts and address books on your mobile devices, and send out reminder emails if you forget to. - Collaborate and share your project files, maintaining the privacy of your data and sharing only the information you need to share. There is no cost to download. Key Features: - Manage and keep track of your customers, prospects, business partners, and more. - Keep track of your sales, marketing, public relations and other campaigns. - Export contacts and notes to Microsoft Word, Excel, Outlook, and other applications. - Create letters, proposals, forms, flyers, and more in real-time. - Highlight sections of your reports to save time. - Keep track of all the places you meet. - Preserve the privacy of your data by never sharing information with others and keeping it only on your computer. - Synchronize your contacts, address books, and project files. - Receive reminder emails if you forget to. - Attach media to contacts and notes. - Schedule e-mails to go out automatically, if you choose to enable auto-reply. - Compose e-mails using pre-built templates. - Share your projects to your associates and co-workers so you don't forget to. - Synchronize your contacts with your mobile devices to keep all of your info and documents on all of your devices in sync. - Keep track of the same contacts from your mobile device. - Keep track of your contacts as they move across devices - including your mobile devices and any other contact recorders you use. - Export your data to Microsoft Word, Excel, Outlook, and other applications. - Compress your documents into a more compact archive to free up space. - Schedule automatic archiving of your documents into a history folder for 30 days, 90 days or 1 year.
