## Magicpicker 2.2 86 Free

i just released magicpicker 2.2: an update to its colour-picking tool for photoshop and illustrator. the plugin, used by artists at disney, marvel and blizzard, adds a traditional colour wheel to its host applications interface. magicpicker 3.0 has been released. this version adds new ui modes to photoshop, you can now use it as a hud color picker that sticks to your keyboard shortcut (or pen button). press the shortcut to show the panel, and release to hide! you can use all power of magicpicker including color temperature wheel, color schemes etc. in this mode! anastasiy has released magicpicker 4.0: an update to its colour-picking tool for photoshop and illustrator. the plugin, used by artists at disney, marvel and blizzard, adds a traditional colour wheel to its host applications interface. i also recently acquired a new color wheel for photoshop that i adore! its anastasiys magicpicker color wheel. ive tried several color wheel plugins for photoshop, and his is far and away the best one. its much faster than the other two ive tried and i am very happy i have it now. it noticeably speeds up my workflow in photoshop when i use it, and feels very natural. i avoided using photoshop for drawing before learning there even were color wheel plugins, actually, because it just wasnt as much fun or intuitive to use as paint tool sais or painters color wheels. magicpicker 7.1 introduces new ui mode to photoshop, you can now use it as a hud color picker that sticks to your keyboard shortcut (or pen button).press the shortcut to show the panel, and release to hide! you can use all power of magicpicker including color temperature wheel, color schemes etc. in this mode!
