1. Classic platformer game, with 40 different levels to play with. 2. Fun for everyone, with 8 different characters to choose. 3. Animated gameplay, with beautiful graphics and music. 4. Endless gameplay, with lots of challenge. 5. A solid leaderboard system, where you can share with your friends. 6. Very simple controls, just click left/right on the screen. 7. You have to jump and to avoid falling in the walls. About Our Game: 8. 50 challenge levels in the first chapter, to get you ready for the second chapter. 9. A second chapter, with even more challenges to overcome. 10. A second season to reach the top! Follow Us: twitter.com/HardSouls facebook.com/HardSouls #hardsouls #HardSouls #HardSoulsV2 #HardSouls2 Try not to fall. Throw a knife on the floor of the hotel. You are in trouble. The game will continue after a few deaths. Fast reflexes and coordination are needed. You will have 1 minute to complete the game. Good luck. :) Our game is an endless platform game. You have to jump to the next platform within 20 seconds by racing against the clock. Your goal is to reach the highest score by passing the most platforms in the shortest time. Do not jump to the next platform when the surface of the platforms is red. If you jump, it's game over. If you jump to the other platform before your time runs out, you will have 20 seconds again. It is the hardest of all platform games. It wouldn't be wrong to say HardSouls. If you don't trust your reflexes, stay away from this game. Because after you start playing the game, you will be defeated dozens of times. Rise in the Leaderboards! And don't look back! About The Game Jump Like An Egyptian: 1. Q: innerHTML changing up elements? I'm trying to do a simple popup, I have:

this is where my div with id PopDiv, is. $('#AppDiv').popup({ 'position': { my: 'center top', at: 'center top'}, 'overflow': 'visible' }); As you can see I am also using.popup and this is allready inside my jquery ui library, my script is bound to the body of the page. So when the script runs, I have: var $div = $('
'), $pop = $('
') $pop.appendTo('#PopDiv'); $div.popup({ 'position': { my: 'center top', at: 'center top'}, 'overflow': 'visible' }); $('#PopDiv').css({'z-index': '101'}); $('body').append($pop); $div.popup('destroy'); $pop.popup('destroy'); $div.remove();
