## **Samsung MI 1660 V1.01.00.34 Toner Reset ((EXCLUSIVE))**

samsung printer toner cartridge life has ended prompt or prompt is not uniform toner cartridge needs to be cleared brush motorcar. or but print a file, information technology volition pop upwards an error bulletin, screenshot made me meet (the premise is to install the incorrect monitor) if yall did not install chips are not prompted to install the toner cartridge or toner cartridge or tips invalid toner cartridge has run out of this situation is that a bad motherboard all of the above information can be found on the site of the specialists who cooperate with samsung. in particular, the second reference is the most interesting, because it explains the reasons for which a toner cartridge has ceased functioning. but, unfortunately, i was not able to find out how to fill the information about the toner counter that will allow you to turn off the cartridge after certain number of pages. screenshot 2. this information about the number of pages that have already been printed is not deleted, but at the same time it is not shown on the internet. and yet, samsung ml-1661/1665 (1660/1665) printer toner cartridge can be a lot of information about the resource consumption of the product. but the information is not available on the internet, because samsung takes care of it itself. it is possible to find this information on the websites of specialized workshops that cooperate with samsung. screenshot 3. but, if you need to use a samsung ml-1661/1665 (1660/1665) toner cartridge, you should take all possible precautions to prevent failure of the printer, since these products are expensive. at the same time, you should use the maximum number of cartridge chips, since they are the most expensive items in these printers. and yet, samsung does not allow you to replace the cartridge with a new one, and. at the same time, the manufacturer takes no measures to ensure that these cartridges are replaced before they are replaced.

[Download](#)

then you need to extract the downloaded firmware to the folder indicated in the screenshot. the firmware extracted will be located in the c:\samsungglue folder, you can also extract the firmware by another method. please note, that to update the printer firmware with a third-party tool you must first remove any existing samsung printer firmware, install the firmware using a third-party tool and then again restore the samsung printer firmware. please note the program to update the samsung printer firmware will not allow you to update the samsung printer firmware with a

---

third-party tool and will not allow you to use third-party tools to update the samsung printer firmware to perform the above steps, because some of them contain the samsung firmware and some contain the firmware that was artificially created to prevent update. the printer firmware was restored and the printer is recognized, but it is necessary to re-install the printer firmware that is otherwise. to update the printer firmware, open a command prompt. at this stage, the printer was recognized by the computer and it was also recognized by the printer for the first time. i am convinced that the information and instructions

---

in this article will be helpful for all those who wish to completely recover their printers from the manufacturer's artificially introduced failures or who just want to use them without restrictions. the table shows that these printers must be able to print at least 30,000 pages, and this without replacing the main components. but in order for users to buy new products, or at least go to specialized workshops that are supervised by samsung, the manufacturers of these printers deliberately introduce failures in the design of their products that limit the possibility of their long-term operation. and this is manifested from the fact that the starter

---

cartridge supplied with the printer allows you to print only 700 pages (although the new cartridges from this company provide printing of 1500 pages without refueling), and ending with the work of the printed page counters, which turn off the cartridge after 3000 pages, and the printer through 5000 pages. at the same time, samsung diligently removes information from its websites that would allow users to operate samsung ml-1661 (1660/1665) printers until the end of the assigned resource. and, not only do they remove this useful information from their sites, they make sure that this information does not appear on the internet,

---

especially on the sites of specialized workshops that cooperate with them. as an example, i suggest taking a look at screenshot 1..
