HDP 2.1 4 Crack Download and Free Activator.Q: Header cannot contain a local navigation component I added an app bar with a drawer menu in my

react native project. My problem is, the nav-bar which is linked to the AppBarHeader component, is outside of the header (which I don't want, as it can contain a background image). If I remove the AppBarHeader component, all is fine. I can't find why the navigation component is placed outside the header. Here is my code: App.js import React, { Component } from'react'; import { StyleSheet, Text, View, TextInput, ScrollView, ImageBackground, AppBar, } from'react-native'; import { Linking } from 'expo'; import { compose } from'redux'; import { Provider }
